

Infant Height Close Coupled WC Suite

Product Code: ASH-CCI

These Armitage Shanks close coupled infant toilets are specifically designed for use by children between the ages of three and six, making them perfect for infant schools, junior schools, creches and nurseries. Both the cistern and the WC itself are made from rugged vitreous china, which makes the unit both hygienic and easy to clean. These WCs can also help combat toilet anxiety, because they resemble the toilets your pupils are likely to use at home.

The unit is designed to be mounted against a wall and fixed to the floor using screws via a concealed bracket, while the integrated six litre cistern means you don't have to worry about installing a cistern separately. You can customise your close coupled infant toilet with a plastic seat, with or without a lid; both are available in a choice of four child friendly colours. The seat can also be fixed in the downward position for safety reasons.

The cistern comes with a push button flush, but can also be supplied with a side action lever if desired.

Delivery

To order typically 5 to 7 working days
