

Junior Height Close Coupled WC Suite

Product Code: ASH-CCJ

These Armitage Shanks close coupled junior toilets are the ideal choice for junior school washrooms. The toilet pan and cistern are both constructed from vitreous china: hardwearing porcelain which has been treated with an enamel coating for a hygienic and easily cleanable finish. The dimensions of this unit make it ideal for use by children aged 7 to 11.

Because close coupled toilets come with an integral cistern, you don't need to worry about installing and plumbing in a cistern separately; simply integrate the unit with your existing plumbing and screw the unit to the floor and wall via the pre-drilled fixing centres and concealed bracket.

These close coupled junior WCs also come with optional coloured plastic seats, which can be secured to the rim of the toilet pan to prevent them from slipping. Coloured plastic lids are also available. The cistern is supplied with a simple push button flush for ease of use, but this can be replaced with a spatula-style side lever if you prefer.

Delivery

To order typically 4 to 7 working days
