

Compact Wash Basin

Product Code: WBCM

This small compact wash basin is manufactured from grade 304 stainless steel and has a satin polished finish on all exposed surfaces.

The compact hand wash basin comes with two tap holes, and a combined waste and overflow fitting with plug and chain. Slightly larger than our [mini wash basin](#) the compact basin has the benefit of an overflow to prevent accidents of blocked plug holes or taps being left running.

This basin is ideally suited for areas where separate hand washing is required such as school kitchens and medical rooms where space may be limited.

Delivery

Typically 1 to 2 working days
